c. Competitiveness / Level of Play

Some Games have been getting out of hand (score & physicality)

- 5/6 Division only had 5 A teams out of 20
- Option 1: ask towns to reconsider being an A team
- Option 2: all teams in one division at 5/6 level and make sure B teams only play A team once
- Executive Committee decided on option 2
- Running up the score on a lower quality team should not be a common experience

Matt Scassero [Seneca]

- Can we use data during pre-season to make sure teams are in the correct division

Steve Schwegel

- Mid-Season shuffle?
- Lee: when we schedule the season, we only schedule for half the season and shuffle and then finish the schedule
- Pre-season (4 weeks), Regular season with standings (4 weeks)

Chad Flexon

- The League could host some clinics for coaching and skills clinics for the players

Mark Pietrucha

- Some kids do not start playing until 5/6 grade or 7/8 grade
- League needs to balance competition with growing the game

d. Playoffs

Lee:

- 7/8 level (top 8 teams make the playoffs)
- 5/6 level (top 8 teams make the playoffs)

4. Open Floor

Steve Swegel
